SAINT SEBASTIEN® GRANITE

Widely used for the construction of steps for churches and other important buildings, this granite is a heritage material in Quebec. Its grains are small and uniform and it has good structural properties. Its warm gray and subtle beige color is unique among any other architectural granite on the market and makes it easy to pair with other stones.

PHYSICAL TEST RESULTS

		IMPERIAL	METRIC
Absorption by weight	ASTM C97	0.27%	0.27%
Density	ASTM C97	163.8 lb/ft ³	2 623.82 kg/m ³
Compressive strength	ASTM C170	29 175 Psi	201.15 MPa
Flexural strength	ASTM C880	1 784 Psi	12.3 MPa
Modulus of rupture	ASTM C99	2 037 Psi	14.04 MPa
